

GLI ZERI

Esegui le seguenti moltiplicazioni.

$64 \times 10 = \underline{\hspace{2cm}}$

$64 \times 100 = \underline{\hspace{2cm}}$

$64 \times 1.000 = \underline{\hspace{2cm}}$

$964 \times 10 = \underline{\hspace{2cm}}$

$964 \times 100 = \underline{\hspace{2cm}}$

$964 \times 1.000 = \underline{\hspace{2cm}}$

$239 \times 10 = \underline{\hspace{2cm}}$

$239 \times 100 = \underline{\hspace{2cm}}$

$239 \times 1.000 = \underline{\hspace{2cm}}$

$44 \times 10 = \underline{\hspace{2cm}}$

$44 \times 100 = \underline{\hspace{2cm}}$

$44 \times 1.000 = \underline{\hspace{2cm}}$

$532 \times 10 = \underline{\hspace{2cm}}$

$532 \times 100 = \underline{\hspace{2cm}}$

$532 \times 1.000 = \underline{\hspace{2cm}}$

$144 \times 10 = \underline{\hspace{2cm}}$

$144 \times 100 = \underline{\hspace{2cm}}$

$144 \times 1.000 = \underline{\hspace{2cm}}$

Completa.

$5.470 = \underline{547 \times \dots\dots\dots}$

$547.000 = \underline{547 \times \dots\dots\dots}$

$54.700 = \underline{547 \times \dots\dots\dots}$

$28.700 = \underline{287 \times \dots\dots\dots}$

$2870 = \underline{287 \times \dots\dots\dots}$

$287000 = \underline{287 \times \dots\dots\dots}$

$6.300 = \underline{63 \times \dots\dots\dots}$

$630 = \underline{63 \times \dots\dots\dots}$

$63.000 = \underline{63 \times \dots\dots\dots}$

$1.050 = \underline{105 \times \dots\dots\dots}$

$105.000 = \underline{105 \times \dots\dots\dots}$

$10.500 = \underline{105 \times \dots\dots\dots}$
